

The radio station KLOVE is a very uplifting and inspirational radio station. I never have to wonder what my children listen to when i tune into this station. I never have to worry that something sexual or derogatory wil be said or talked about while listening.

the effects can be seen in our community due to the fact that the town that we live in is a small on. We are abiout nineteen miles south of Austin Tx. The fact that whenn we drop our kids of at school and when the children get out of the vehicle the teachers and staf that open the doors at the school driop offs get a big smile on their faces from the music. please do whatever is poossible in order for our town not to lose this station.
